VOLUME XXX No. 47

GLEICHEN, ALBERTA, WEDNESDAY FEBRUARY 9, 1938

SUBSCRIPTION \$2.00 PER YEAR

TWO SUCCESSFUL BONSPELS HELD LAST WEEK

Two bonspiels were played last week, one by the men and the other by the ladies. There were nineteen rinks in the gent's bonspiel and ten in the ladies. In the first competition by the ladies the following got into the fours and the winner: Mrs. Hirtle defeated Mrs. Black; Miss Plummer beat Mrs. Thompson. The final was won by Miss Plummer.

Second competition Miss Plummer won by Mrs. Hirtle and Mrs. Hirtle won by Mrs. Michael. The final was won by Mrs. Michael.

Men's grand challenge: Swanson defeated Jacques and Beagle lost to MacDonald. The final game is to be played.

Merchants: Jeffers lost to Somerville and Huskyne lost to MacDonald. In the final Somerville defeated MacDonald.

Consolation: Clark beat Bennis and Reid defeated Woods. Reid won the final.

TWO CLUNY MEN HAVE VERY NARROW ESCAPE

Fortune smiled on Earl Stuch and David Schiffer, both of Clun, Friday afternoon. (The two men) emerged with only minor injuries from a grade crossing accident in which their truck was hit by a train five miles east of the city and completely smashed. Dazed but conscious the two men were left sitting in the rear portion of the truck, which was sent tearing along the track in the first of kindling, and mingled with the provisions of all sorts the men were taking home with them.

A passing motorist stopped and took the two to the General Hospital, where they were treated by Dr. J. H. Brodie. Stuch was suffering from a broken nose and cuts about the face. Schiffer's left leg and wrist were bruised.

W. Adamson was the only eye witness. Hearing the train's whistle, he looked out of the window just in time to see the train, which was travelling south, and the truck headed east, meet. The truck was tossed 15 yards along the track and then dropped into the ditch—Calgary Herald.

FIRE HAZARDS OF PUBLIC BUILDINGS

The tragic fire which recently destroyed Sacred Heart College at St. Hyacinthe, P.Q., bringing death to some fifty persons and serious injury to many others, imposes upon this office the obligation of calling public attention to certain hazards almost universally present in educational establishments and in institutional buildings. The following record of fires in such buildings from 1922 to 1929 inclusive, 2,274 fires occurred entailing an aggregate property loss amounting to \$10,577,986. From 1930 to 1937 inclusive, 1,961 fires caused a total property loss of \$1,062,710. While some gratification may be felt at the improved loss experience in the second of these periods the significant fact remains that there was little curtailment in the number of fires reported and practically no diminution of the hazards involved. Of the 4,235 outbreaks in both periods, the responsible causes were determined in 3,912 cases.

The aftermath of major fire disaster such as St. Hyacinthe is an attempt to cover the responsible authorities with a blanket of

Interest In Municipal Election To Be Held Next Monday

Monday was nomination day for councillors and school trustees. Two former trustees, Messrs. P. N. Warner and Wm. Ferguson, whose terms had expired were re-elected by acclamation.

To fill the four vacancies on the town council there were eight nominations, but J. E. Ostrander, later withdrew leaving seven candidates for the voters to vote on next Monday, which is the day the election will take place.

The following are the candidates.

D. Anderson.
D. MacDonald.
A. F. MacCallum.
L. Michael.
W. Schmidt.
C. Thompson.
W. E. Thompson.

Four of these are to be elected, three for two years and one for one year or to finish the term of the late Wm. McConnell. The three who obtain the largest number of votes will fill the council seats for two years while the fourth will take the one year term.

Not for many years have there been so many candidates for the council. This shows that the rate-payers are taking an interest in town affairs and it is a great contrast to a couple of years ago when it was impossible to get enough candidates to fill out the full list of councillors, and on a time it appeared the town would revert to the status of a village.

sympathy and lunch a la carte. The ladies were served by the hostesses. The ladies will meet again at the residence of Mr. J. W. Hutzel on.

THE WORLD OF WHEAT

By H. G. L. Lange Director of "Crop Testing Plan."

The International Advisory Committee has made another forecast for the wheat crop. It is the forecast that if the present average of wheat in the world should be maintained, and if the yield per acre in every country should be normal, and if the demand for wheat should remain as low as at present, then on August 1st, 1941 there would be a huge surplus of wheat in the world of 1,370 million bushels.

Has this forecast founded upon so many "ifs" any value, I have been asked? My reply is that it is not a forecast at all, but simply a mere guess.

It is true that it might occur, but actually no one can tell, for any such prediction depends upon a knowledge of future yields, future weather, and meteorologists tell us that no one can accurately forecast the weather more than a few hours ahead.

Guessing the future, as a rule, is a harmless pastime. The saddest is, however, that whenever the International Wheat Committee makes its long-range gloomy guesses the market becomes unsettled, the price of wheat tends to fall, and so the producer is harmed.

In 1933 the same committee made the same guess, and proved to be absolutely and entirely wrong. The following factors have tended to raise prices: Consumption in U.S. 60 million larger than usual. Italian winter wheat acreage cut by 10 per cent. Exported buys Australian, Argentine and U.S. wheat. Official Argentine corn acreage smaller than expectations. Reduction in proposed Russian grain sowings. Continued drought in the U.S. hard winter belt.

The following factors have tended to lower price: International Wheat Committee predicts disastrous glut of wheat by 1940. Disappointingly small European demand for wheat. Increase in official Rumanian winter wheat acreage. European crop conditions continue generally favorable. On passage wheat stocks increase. Rumania prolongs export bounty.

GUNNERS LOSE OUT IN SERIES FOR MORGAN CUP

Calgary Red Wings 9, Gleichen 5. That was the score Monday night for the round Calgary 11 and Gleichen 9. The Red Wings deserved to win on the night's play, they were better organized. They had the most scoring opportunities as Gleichen left themselves wide open and failed to cover their men thereby letting in several goals. The first and second periods the visitors put on power plays that brought results. In the third the Gunners tried power plays and got three goals but at the same time the Red Wings picked up a couple of counters. Gleichen made two goals in the first, Red Wings three. In the second Red Wings got four while the Gunners did not get a solitary counter.

McTeer of Calgary, referee. Gleichen is now out of the Morgan Cup series and will enter the Stanley Cup series. The first game will be with Exshaw and the two games must be played by Saturday.

Friday evening saw the first play-off game here this year when the Gunners won from the fast skating Calgary Red Wings 4-2. The game was the fastest and most rugged play-off yet here. Both sides were very hard bang-up hockey and attended strictly to the business of chasing the elusive puck. Gleichen committed one costly error and that was when Calgary scored their second goal. The Gunners not picking their man properly. McTeer to the front of their net and picking up a pass from the corner shot it home. There after the Gunners covered their man.

The Red Wings opened the scoring by Gilles from Wm. After some minutes it proved when E. Lester's rebound McTeer then scored for Calgary. There were no penalties. Gleichen scored the only goal in the second when E. Lester made an individual rush from his own blue line. B. Brown and E. Lester each had two splendid chances to score but could not beat Novick. Maynard received two penalties, both within a minute or so of each other. The period was very fast and rough, players being tossed all over the place. Wilson made several impossible saves.

In the third spasm, while C. Brown and Boothman were in the penalty box, B. Brown made another goal from E. Lester on a fast play. Gleichen almost made two more counters before the penalties men returned. With teams' men alone Gleichen had everything their own way. Kromm was penalized. The third period was dominated by the Gunners.

GLEICHEN UNITED CHURCH

Rev. J. N. Wilkinson, Minister.
Mrs. H. Birch, choir leader.
Miss Jean Farquharson, pianist.
11 a.m. Church School.
7:30 p.m. Divine Worship. Subject: "The City of Bread." There will also be a very interesting story for the juniors entitled, "The Broken Vase."

FRASER-HUNTER

On February 1st Ivy Carnes, daughter of Mr. and Mrs. George Hunter became the bride of Mr. Thomas George Fraser, son of Mr. and Mrs. George Fraser of Elora, Ont. At Wilkinson officiated at the ceremony in the United Church manse at 4 o'clock. Miss Della Hunter, sister of the bride, acted as bridesmaid, and Mr. Raymond Menard was the groomsmen. The bride chose a wedding dress of navy blue crepe. A wedding supper was served at the home of the bride's sister-in-law, Mrs. Rupert Hunter, where only immediate members of the family attended. After the supper, Mr. and Mrs. Fraser left for Calgary by car where they spent a short honeymoon, after which they will reside at Standard.

Saturday morning at Old Sun School the Canadians defeated the Red Wings by a score 4-2. The Canadians are now safe for the play-off after the final between the Red Wings and the Americans. It is hoped to start the play-off at the end of this week.

A Wilson is up and around again after a few days illness.

Never mind - we'll have
DRIED OR PICKLED FISH
for SUPPER"

• Even if that dauntless fisherman didn't have any luck, today, he can have fish for supper . . . and he will like it!

Your dealer can secure Dried or Pickled Canadian Fish for you no matter how far you are from open water.

You can choose from such Dried Fish as Cod, Haddock, Hake, Cusk, and Pollack, and such Pickled Fish as Herring, Mackerel and Alewives . . . and every one of them can be served in tasty, different ways.

Enjoy this food in your home. You can get Dried or Pickled Canadian Fish with all its goodness retained for your enjoyment. Ask your dealer. You will find it very economical, too.

Notice of Poll

TOWN OF GLEICHEN MUNICIPAL ELECTIONS

Public notice is hereby given that an election will be held for the offices of councillors of the Town of Gleichen for the years 1938 and 1939, and that the polling will take place on Monday, February 14, 1938 in the Town Office, Crowfoot Street, Gleichen, from ten o'clock in the forenoon, until seven o'clock in the afternoon, and that I will at the Town Office, on Monday, February 14th at nine o'clock p.m. sum up the votes and declare the result of the election.

Given under my hand at Gleichen this 8th day of February, A.D., 1938.

W. J. PHYTHIAN,
Returning Officer.

A 15,000,000 Meat Parade—HEADED EAST!

The Eastern industrial worker likes Western meats. He consumed over \$15,000,000 worth of it last year, providing a valued source of income to thousands of prairie province farmers. These farmers shipped him 175,705 head of cattle; 21,144 calves and 41,557 hogs and 127,000 tons (not pounds) of fresh and cured dressed meat as well. And meat is only one of the Western items that goes on the table of the Eastern worker. He bought well over \$15,000,000 worth of grains, poultry, eggs, honey and other commodities, and consumed not less than 10,000 tons of butter to the value of another \$4,500,000.

The well-being of such a market—a market aggregating over \$40,000,000—is of vital value to you. It is to your interest to have the Eastern industrial worker in steady employment, the steadier the better, for the steadier his work the greater his consumption of your products.

Western purchases of Made-in-Canada cars mean work, not only to the automotive and allied industries, but in hundreds of other plants as well. They mean pay-rolls and pay-rolls mean purchasing power.

And don't forget that this domestic market brings far better prices than does the export market.

There are 18,000 workers in Canada's automobile plants, and 15,000 employed in the 200 parts manufacturing plants. People whose prosperity depends in large measure on the activities of the motor car builders. And as well as the workers who build the cars, there are the men who have a huge construction of Eastern Canadian group of people who contributed much of the \$10,000,000 spent last year for Western goods. Therefore, all Canadian Automobile Industry men as well as you—men who are vitally interested in a sound and well-supplied Canadian Automobile Industry.

For statistical and further information about this industry, write to Automotive Industries, 1500 Commerce Building, Toronto.

AUTOMOTIVE INDUSTRIES
OF CANADA

Town & District

Mrs. V. McManis with her brother Arthur, spent the week end in Calgary.

Mrs. W. J. Phythian who has been confined to a hospital for sometime is slowly improving.

Robert Dobson has been seriously ill in a Calgary hospital. Latest reports he is somewhat improved.

Mrs. S. Hall met with a slight accident, by slipping on a piece of ice. It is hoped that she will be able to be around again soon.

Quite a number of local sports attended the hockey game at Strathmore Saturday night and saw Canmore walk off with the honors.

Miss Jean McConnell is recovering from an operation for appendicitis. Mrs. McConnell, Jean's mother, spent the week end in Calgary visiting her.

Owing to the blizzard Friday the Juniors of the U. F. A. did not meet. The prize was won by February 11th at the home of Mrs. Calkins.

To settle all fishing arguments an inventor in Superior, Wis., has invented a fishing rod in which the handle contains a scale that will weight up to 20 pounds. Bob Brown and Ed. Taylor are thinking of buying a couple of these rods.

The card party and dance held at Living Spring school was not largely attended owing to the blizzard that raged during the day, but all who went had a very nice time, five table playing court whist. The prizes were won by Mrs. A. McLeay 1st, and Donald McArthur. First consolation to Mrs. DeForest and men's consolation to J. A. McArthur. Dancing was enjoyed until 2:30 in the morning when all went home hoping for another such evening in the near future.

Calgary is the birth-place of all the political fads with which politicians have been saddled during the past fifteen to twenty years. The U. F. A. political machine got started in Calgary; the C.C.P. was born there; Social Credit found its Messiah in the former Calgary school teacher, William Aberhart, B.A., and now the Unity Party has been born in Calgary. And did not someone bring a chap by the name of Sapir to Calgary to start the wheat pool? For starting something, whether it lasts or not, the prize goes to Calgary the "backing bronk" city of the Foot-hills.—Drumheller Review.

ST. ANDREW'S CHURCH

Rev. G. W. Lang, B.A., incumbent

CORRESPONDENCE

La Belle, Mo

Editor Call:

May I through the medium of your paper, The Call, pay a tribute to a most worthy life; lived in your section of the world. I refer to the late R. C. Sheets, or "Call" as we all know him. My every day life for twenty years of pioneering came in direct contact with his. Life is indeed many sided and of many angles. Every day brings one more complicated pieces to be placed in the mistic jigsaw puzzle. A section of which every community must put together.

Carl never threw his pieces into a pile carelessly, to let them shift about and to fit in as best they might. He studied to visualize the finished work and strove to place each new day where it most nearly fitted and where it harmonized and gave a pleasing effect. Any piece of life, in any part of the community, touched by sorrow was where Carl's next piece should be placed, to bolster the spirit and steady the step until the trail was again gained. He realized what so many of us fail to realize, that every community block of the puzzle, where properly assembled, has a trail interesting, dimly through it along which the world must follow if we are to reach that most desired shrine of "world peace".

Judging from the raging "hurricane" of these troubled times, there seems but little hope of ever reaching it except along this trail of sympathy and service to humanity.

There can be no harmony in the world picture save as that harmony is built into each and every community section. No master artist with brush in hand can do the job for us. Carl's every thought radiated consideration for the feelings and happiness of his fellow men. A rich harvest of better feeling will long be reaped from his bounteous sowing.

H. H. ELLIS.
